

# Anna C. Gilbert

Dept. of Electrical Engineering  
Yale University  
10 Hillhouse Avenue  
New Haven, CT 06511  
734-717-9696 (phone)

anna.gilbert@yale.edu  
<https://annacgilbert.github.io/>  
**Revision date:** February, 2024.

---

## Research

- General interests: analysis, probability, signal processing, and algorithms.
- Specialization: randomized algorithms with applications to massive datasets and signal processing.

## Education

- Ph.D., Mathematics, Princeton University, June 1997, *Multiresolution homogenization schemes for differential equations and applications*, Professor Ingrid Daubechies, advisor.
- S.B., Mathematics (with honors), University of Chicago, June 1993.

## Positions Held

- John C. Malone Professor of Applied Mathematics, Departments of Electrical Engineering and Statistics & Data Science, Yale University, 2023–present.
- Director of Graduate Studies, Applied Mathematics Program, Yale University, 2023–present.
- Chair, Applied Mathematics Program, Yale University, 2021–2022.
- John C. Malone Professor and Professor. Departments of Mathematics and Statistics & Data Science, Yale University, 2020–2023.
- Herman H. Goldstine Collegiate Professor. Department of Mathematics, University of Michigan, 2014–2020.
- Full Professor (Courtesy appointment). Division of Electrical and Computer Engineering, University of Michigan, 2010–2020.
- Full Professor. Department of Mathematics, University of Michigan, 2010–2020.
- Associate Professor (Courtesy appointment). Division of Electrical and Computer Engineering, University of Michigan, 2008–2010.
- Associate Professor. Department of Mathematics, University of Michigan, 2007–2010.
- Assistant Professor. Department of Mathematics, University of Michigan, 2004–2007.
- Principal technical staff member. Internet and Network Systems Research Center, AT&T Labs-Research, 2002–2004.
- Senior technical staff member. Information Sciences Research Center, AT&T Labs-Research, 1998–2002.
- Visiting instructor. Department of Mathematics, Stanford University, Winter quarter 2000.
- Postdoctoral research associate. Yale University and AT&T Labs-Research, 1997–1998.
- Intern. Lucent Technologies Bell Laboratories, summer 1996.
- Research assistant. Princeton University, 1994–1995.
- Intern. AT&T Bell Laboratories, summers 1993–1995.

## Publications

### Grants

- MIDAS Challenge grant, co-PI and co-director of Michigan Institute for Single Cell Data Analysis, March 2017–February 2020, \$1.2 million.
- Simons Foundation Fellowship, 2017–2018.
- Samsung research funds, “Neural Network Inspired Compressive Sensing and Image Processing,” Prof. Michael Flynn (ECE) PI, \$60,000, 2013–2020.
- NSF AF (Medium, Collaborative Research): Sparse Approximation: Theory and Extensions, PI, July 2012–June 2017, \$603,000
- ARO 61819-MA: Semi-inner-products in Banach Spaces with Applications to Regularized Learning, Sampling, and Sparse Approximation, co-PI, July 2012–June 2013, \$65,000.
- NSF SCREMS: Scientific Computing and Mathematics at the University of Michigan, co-PI, NSF DMS 1026317, September 2010—August 2013, \$175,000.
- Sensing Sensors: Compressed Sampling with Co-design of Hardware and Algorithms across Multiple Layers in Wireless Sensor Networks, co-PI, NSF CIF 0910765, September 2009–August 2014, \$2,900,000.
- DARPA: Theory and Practice of Analog-to-Information Conversion (Phase II), co-PI, ONR/DARPA N66001-06-1-2011, September 2008–August 2010, \$750,000.
- NSF CAREER: Modeling and Analysis of Data from Massive Graphs, sole PI, NSF DMS 0547744, May 2006–April 2011, \$400,000.
- DARPA: Theory and Practice of Analog-to-Information Conversion, co-PI, ONR/DARPA N66001-06-1-2011, January 2006–December 2006, \$150,000.
- NSF DDDAS-SMRP: Optimizing Signal and Image Processing in a Dynamic, Data-Driven Application System, co-PI, NSF CNS 0540154, January 2006–November 2008, \$90,000.
- Elizabeth C. Crosby Research Award, sole PI, University of Michigan, 2005–2006, \$20,000.
- FRG: Collaborative research in algorithms for sparse data representation, co-PI, NSF DMS 0354600, September 2004–August 2007, \$317,808.

## Ph.D. Students

- Zijian Wang, Applied Mathematics PhD Program, Yale University, expected graduation 2028.
- Dami Fasina, Applied Mathematics PhD Program, Yale University, expected graduation 2025.
- Joon-Hyeok Yim, Department of Mathematics, Yale University, expected graduation 2024.
- Asaf Etgar, Applied Mathematics PhD Program, Yale University, expected graduation 2027.
- Isay Katsman, Applied Mathematics PhD Program, Yale University, expected graduation 2027.
- Rishi Sonthalia, Department of Mathematics, University of Michigan, April 2021. (jointly advised with Raj Rao, University of Michigan.) (now at UCLA)
- Claire Lin, Department of Mathematics, University of Michigan, April 2021. (jointly advised with Jeff Fessler, University of Michigan.)
- Umang Varma, Department of Mathematics, University of Michigan, April 2019. (now at Google)
- Alexander Vargo, Department of Mathematics, University of Michigan, April 2020.
- Audra McMillan, Department of Mathematics, University of Michigan, April 2018. (now at Apple Research)
- Yan-shuo Tan, Department of Mathematics, University of Michigan, April 2018. (jointly advised with Roman Vershynin, University of California-Irvine.)
- Yitong Sun, Department of Mathematics, University of Michigan, August 2019 (expected graduation). (jointly advised with Ambuj Tewari, University of Michigan.) (now at Hauwei)
- Jeremy Hoskins, Department of Mathematics, University of Michigan, April 2017. (jointly advised with John Schotland, University of Michigan.) (now at the University of Chicago)
- Paul Shearer, Department of Mathematics, University of Michigan, May 2013.
- Jae Young Park, Department of Electrical Engineering and Computer Science, University of Michigan, May 2013. (now at Apple Research, jointly advised with Michael Wakin, Colorado School of Mines.)
- Praveen Yenduri, Department of Electrical Engineering and Computer Science, University of Michigan, December 2012. (now at MathWorks.)
- Ray Maleh, Department of Mathematics, University of Michigan, August 2009. (now at L3 Communications.)
- Joel Tropp, *Topics in Sparse Approximation*, University of Texas at Austin (joint with Inderjit S. Dhillon, Dept. of Computer Science, UT-Austin), 2004. (now at California Institute of Technology.)

## Postdoctoral Fellows

- Kevin O'Neill, Yale University, 2021–2024.
- Howard Levinson, University of Michigan, 2018–2020.
- Lalit Jain, University of Michigan, 2016–2017.
- Brett Hemenway, University of Michigan, 2009–2012.
- Joel Tropp, University of Michigan, 2004–2007.

## Undergraduate/REU/UROP/Summer Students Supervised

- David Gold (Yale University, senior thesis), 2022.
- Stephen Newman (Yale University, senior thesis), 2021.

- Yulan Zhang (Yale University, senior thesis), 2021.
- Justin Shetty and James Wich (Univ. of Michigan, UROP), 2016–2017.
- Yi Wang (Univ. of Michigan, EECS), University of Michigan, 2006.
- Kyle Herrity (Univ. of Michigan, REU), University of Michigan, 2005.
- Daniel Sikora (Univ. of Michigan REU), University of Michigan, 2005.
- Kirill Levchenko (Univ. of California San Diego), AT&T Labs-Research, 2003.
- Joel Tropp (Univ. of Texas), AT&T Labs-Research, 2002.
- Jing Zou (Princeton University), AT&T Labs-Research, 2002.
- Maya Gupta (Stanford University), AT&T Labs-Research, 2000.
- Stephane Seuret (ENST), AT&T Labs-Research, 1999.
- Youngmi Joo (Stanford University), AT&T Labs-Research, 1999.
- Jennifer Steichen (Univ. Illinois), AT&T Labs-Research, 1998.

### **Courses Taught**

- Fall 2021, S&DS 431/631, Computation and Optimization, Department of Statistics & Data Science, Yale University.
- Spring 2021, S&DS 431/631, Computation and Optimization, Department of Statistics & Data Science, Yale University.
- Fall 2020, Math 863, Topics in Sparse Analysis, Department of Mathematics, Yale University.
- Winter 2020, Math 651, Mathematical Analysis and Algorithms of Machine Learning, Department of Mathematics, University of Michigan.
- Winter 2019, Math 650, Fourier Analysis, Department of Mathematics, University of Michigan.
- Fall 2018, Math 556, Applied Functional Analysis, Department of Mathematics, University of Michigan.
- Fall 2016, M571, Numerical Linear Algebra, Department of Mathematics, University of Michigan.
- Fall 2016, Math 556, Applied Functional Analysis, Department of Mathematics, University of Michigan.
- Fall 2015, Fall 2015, Math 556, Applied Functional Analysis, Department of Mathematics, University of Michigan.
- Winter 2015, Math 416, Randomized Algorithms, Department of Mathematics, University of Michigan.
- Fall 2014, Math 571, Numerical Linear Algebra, Department of Mathematics, University of Michigan.
- Winter 2014, Math 416, Randomized Algorithms, Department of Mathematics, University of Michigan.
- Fall 2013, Math 556, Applied Functional Analysis, Department of Mathematics, University of Michigan.
- Fall 2012, Math 471, Introduction to Numerical Methods, Department of Mathematics, University of Michigan.
- Fall 2012, Math 571, Numerical Methods for Scientific Computing I, Department of Mathematics, University of Michigan.
- Winter 2012, Math 651, Sparse Analysis, Department of Mathematics, University of Michigan.
- Fall 2011, Math 571, Numerical Methods for Scientific Computing I, Department of Mathematics, University of Michigan.

- Summer 2011, Short course on Sparse Approximation, Women in Mathematics Program, Institute for Advanced Study.
- Winter 2010, Math 471, Introduction to Numerical Methods, Department of Mathematics, University of Michigan.
- Summer 2010, Short course on Sparse Approximation, Park City Mathematics Institute.
- Fall 2009, Math 571, Numerical Methods for Scientific Computing I, Department of Mathematics, University of Michigan.
- Fall 2008, EECS 598, Compressive Sensing, Division of Electrical and Computer Engineering, University of Michigan.
- Winter 2008, Math 571, Numerical Methods for Scientific Computing I, Department of Mathematics, University of Michigan.
- Fall 2007, Math 471, Introduction to Numerical Methods, Department of Mathematics, University of Michigan.
- Winter 2007, Math 650, Fourier Analysis, Department of Mathematics, University of Michigan.
- Winter 2006, Math 650, Fourier Analysis, Department of Mathematics, University of Michigan.
- Fall 2005, Math 425, Introduction to Probability, Department of Mathematics, University of Michigan.
- Fall 2005, Math 454, Boundary value problems for partial differential equations, Department of Mathematics, University of Michigan.
- Fall 2004, Math 454, Boundary value problems for partial differential equations, Department of Mathematics, University of Michigan.
- Fall 2004, Math 450, Advanced mathematics for engineers, Department of Mathematics, University of Michigan.
- Winter 2000, Time/Frequency analysis, Department of Mathematics, Stanford University.

### Patents

- A. Gilbert, Y. Kotidis, S. Muthukrishnan, and M. Strauss, Method and apparatus for using wavelets to produce data summaries, 7,296,014, November 13, 2007. Assignee: AT&T Corp.
- A. Gilbert, Y. Kotidis, S. Muthukrishnan, and M. Strauss, Method and apparatus for using wavelets to produce data summaries, 7,272,599, September 18, 2007. Assignee: AT&T Corp.
- A. Gilbert, S. Guha, P. Indyk, Y. Kotidis, S. Muthukrishnan, and M. Strauss, Method and apparatus for using histograms to produce data summaries, 7,177,282, February 13, 2007. Assignee: AT&T Corp.
- J. Fong, A. Gilbert, S. Kannan, and M. Strauss, Method for Routing Data Using a Fractional Open Shortest Path First Protocol. (Filed.)

### Awards

- Awarded SIAM Ralph E. Kleinman Prize, 2013.
- Awarded EURASIP Signal Processing Best Paper award for *Algorithms for simultaneous sparse approximation. Part I: Greedy pursuit*, joint with Joel Tropp and Martin J. Strauss, 2010.
- Awarded Association of Computing Machinery (ACM) Douglas Engelbart Award, 2008.
- Awarded National Academy of Sciences Award for Initiatives in Research, 2008.

- Awarded Alfred P. Sloan Fellowship, 2006–2008.
- Awarded NSF University-Industry Postdoctoral Research Fellowship, 1997-1999.
- Awarded AT&T Foundation Ph.D. Fellowship, 1995-1997.
- Awarded AT&T Foundation Graduate Research Program for Women grant, 1993–1997.
- Awarded National Physical Science Consortium Graduate Fellowship (1993)—declined to attend Princeton University.
- Phi Beta Kappa, May, 1993.

### Invited Talks

- Inaugural AMS von Neumann speaker at the Joint Mathematics Meetings of the AMS, 2022.
- Invited talk at the Mathematics of Complex Data conference, KTH, Sweden, 2022.
- Seminar speaker, NYU Center for Data Science, 2022.
- Applied Mathematics Seminar speaker, Department of Mathematics, UCLA, 2022.
- Alan Goldman Lecture, Department of Applied Mathematics, Johns Hopkins University, 2022.
- Colloquium, Department of Electrical Engineering, Princeton University, 2019.
- Keynote speaker, Workshop on Foundations of Data Science and Applications, Purdue University, 2019.
- Colloquium, Departments of Mathematics and Statistics/Data Science, Yale University, 2018.
- Colloquium, Department of Mathematics, University of Chicago, 2018.
- CBMS Conference on Sparse Approximation and Signal Recovery Algorithms May 22-26, 2017
- IMA Public Lecture, *Group Testing*, March, 2017.
- University of Minnesota Applied Math Colloquium, March, 2017.
- IMA Workshop on Statistical Learning Theory, May, 2016.
- Algebraic and Spectral Graph Theory, BIRS, August, 2016.
- Plenary speaker, Mathematics and Image Analysis, Paris, January, 2016.
- Plenary speaker, Canadian Mathematical Society, Montreal, December, 2015.
- Lectures at summer school on Computational Harmonic Analysis, Univ. of Maryland, July, 2015.
- Plenary speaker, International Biomedical and Astronomical Signal processing (BASP) Frontiers Workshop, Switzerland, December, 2015.
- Speaker, AIM Workshop on implications of the Kadison-Singer proof, California, 2014.
- Invited speaker, Strata+Hadoop industry conference on massive data, New York, 2014.
- Invited speaker, International Congress of Mathematicians, Seoul, Korea, 2014.
- University of Texas at Austin, Distinguished Speaker, Winter 2014.
- Program in Applied and Computational Mathematics Colloquium, Princeton University, 2013.
- Symposium Speaker, National Academies of Science Kavli Frontiers of Science Symposium, Irvine, CA, 2013.
- Boeing Applied Mathematics Seminar, University of Washington, 2013.

- Applied Mathematics Colloquium, University of Colorado-Boulder, 2012.
- AAAS Symposium speaker, Applications of Compressed Sensing, 2013.
- Statistics and Computation Colloquium, University of Chicago, 2012.
- Invited speaker, ICALP 2012 Workshop on Group Testing, 2012.
- Invited speaker, Sensing and Analysis of High Dimensional Data (SAHD), Duke University, 2011.
- Plenary Speaker, Neural Information Processing Systems (NIPS), Granada Spain, December 2011.
- Plenary Speaker, Signal Processing with Adaptive Sparse Structured Representations (SPARS), St. Malo, FRANCE, 2009.
- Applied Mathematics Seminar speaker, Department of Mathematics, Stanford University, October 2008.
- Speaker, Workshop on Sublinear Algorithms, Dagstuhl Germany, August 2008.
- Tutorial Presentation, SIAM Imaging Conference, San Diego, July 2008.
- Speaker, Mining Massive Data Sets, Stanford University, June 2008.
- Michigan Section of the MAA, Plenary talk, May 2008.
- Applied Mathematics Colloquium, Brown University, May 2008.
- Applied Mathematics Seminar, Vanderbilt University, April 2008.
- Applied Mathematics Colloquium, University of Pennsylvania, February 2008.
- Invited Speaker, Information Theory and its Applications (ITA), UC-San Diego, January 2008.
- Applied Mathematics Colloquium, Cornell University, September 2007.
- Speaker, Workshop on Multiscale Methods, Oberwolfach Germany, July 2007.
- Invited speaker, von Neumann Symposium, Park City, Utah, 2007.
- Colloquium speaker, Program in Applied and Computational Mathematics, Princeton University, Princeton, NJ, 2006.
- Invited speaker, Sequences and Codes, IRMACS Centre, Simon Fraser University, Vancouver, BC, 2006.
- Invited speaker, Abel Symposium, Ålesund, Norway, 2006.
- Colloquium speaker, Department of Applied Mathematics, Columbia University, New York, NY, 2006.
- Colloquium speaker, Department of Mathematics, Wayne State University, Detroit, MI, 2006.
- Colloquium speaker, Department of Computer Science, Harvard University, Boston, MA, 2005.
- Colloquium speaker, Departments of Mathematics and Statistics, Boston University, Boston, MA, 2005.
- Invited speaker, Sparse Representation in Redundant Systems Conference, Univ. of Maryland, College Park, MD 2005.
- Invited address, AMS Sectional Meeting, Newark, DE 2005.
- Invited speaker, Multiscale Geometry and Analysis in High Dimensions Conference, IPAM, Los Angeles, CA 2004.
- Plenary speaker, SIAM Annual Conference, San Diego, CA 2001.

- Invited speaker, Session on Internet Research As an Experimental Science, AAAS Annual Meeting, Anaheim, CA, January 1999.
- Invited speaker, SIAM Regional Meeting on Mathematics in Industry, Worcester, MA, May 1998.

### Professional Service

- Executive committee member for the Miller Institute for Basic Research in Science at UC-Berkeley, 2022–present.
- Board of Trustees member at the Institute for Computational and Experimental Mathematics (ICERM) at Brown University, 2022–present.
- Graduate admissions, Department of Statistics & Data Science, Yale University, 2022–2023.
- Member of Wu Tsai Institute for Neuroscience steering committee, Yale University, 2021–2023.
- Member of SEAS Strategic Planning Committee, Yale University, 2020–2021.
- Hiring Committee, Department of Statistics & Data Science, Yale University, 2020–2021.
- Graduate Admissions, Department of Mathematics and Program in Applied Mathematics, Yale University, 2021–present.
- Graduate Admissions, Department of Mathematics, University of Michigan, 2017–2020.
- Program Committee Member, Random/Approx Conference, 2017.
- Member of Alfred P. Sloan Fellowship Selection Committee 2016—2022.
- Co-organizer of Park City Mathematics Institute Summer 2016 program on the Mathematics of Information.
- Chair of Personnel Committee, Department of Mathematics, University of Michigan, 2015–2017.
- Core Member of Michigan Institute for Data Science and Chair of Faculty Recruiting Committee, 2015–2017.
- Co-organizer of workshop at Foundations of Computer Science (FOCS) 2014 on Sparse Fourier Transform.
- IMA Prize Committee member, 2014–2019.
- AWM Sadosky Prize Committee member, 2015–2017.
- Co-organized Midwest Theory Day (held at University of Michigan), 2014.
- Member of the Scientific Advisory Board of ICERM at Brown University 2014–2017, Chair (2015–2017).
- NSF DMS Panel Member, 2013.
- Organizing Committee on Training Students to Extract Value from Big Data, National Research Council, 2013–2014.
- Personnel Committee, Department of Mathematics, University of Michigan, 2012–2019.
- Natural Sciences Divisional Evaluation Committee, University of Michigan, 2012–2015.
- ACM Symposium on Theory of Computing (STOC) 2013 technical program committee member, 2012.
- Member of external review committee for MSRI, March 2013.
- Vienna Science and Technology Fund Reviewer for “Mathematics and...” Young Investigator Award, 2012.

- NSF CCF Panel Member, 2011.
- Committee on the Analysis of Massive Data, National Research Council, 2010-2011.
- Program Committee, Symposium on Discrete Algorithms (SODA) 2011.
- Program Committee, Foundations of Computer Science (FOCS) 2009.
- Fellow in the (Center for Research in Learning and Teaching) CRLT Colloquium on the Science of Learning for 2009-2010.
- Personnel Committee, Department of Mathematics, University of Michigan, 2008–2010.
- Graduate Admissions, Department of Mathematics, University of Michigan, 2007–2009, 2011–2012.
- Board of Governors, Institute of Mathematics and its Applications (IMA), University of Minnesota, 2006-2011, chair 2011.
- Steering Committee, Informatics Undergraduate Degree Program, University of Michigan, 2006–2009.
- Executive Committee, Department of Mathematics, University of Michigan, 2005–2006.
- Computing Committee, Department of Mathematics, University of Michigan, 2004–2005.
- Applied and Interdisciplinary Mathematics (AIM) Graduate Committee University of Michigan, 2004–2005.
- Served on AT&T Labs Fellowship Program committee, 2002–2004.
- Initiated AT&T Shannon Postdoctoral Fellowship and chaired search committee, 2000-2001.

#### Editorial Service

- Associate editor for *Pure and Applied Analysis*, 2018–present.
- Associate editor for *Theory of Computing Systems*, 2010–present.
- Associate editor for *Applied and Computational Harmonic Analysis*, 2010–2013.
- Associate editor for *SIAM Multiscale Modeling*, 2008–2011.
- Associate editor for *Communications in Mathematical Sciences*, 2006–2009.
- Program committee for mini-symposia at ICIAM, Sydney, Australia, 2003.
- Referee for *IEEE Trans. on Information Theory*, *IEEE Trans. on Networking*, *IEEE Trans. on Signal Processing*, *SIAM Journal on Applied Mathematics*, *EURASIP Journal of Signal Processing*.
